A Guide to Creative  
Colours &  
Finishes

We recommend using this guide to request a painted sample from your supplier prior to placing your order

# ◆ Durable, beautiful and guaranteed to last

Committed to the highest standards of product quality and workmanship, we undertake a rigorous regime of quality inspections and controls, ensuring our powder coated products comply with all the requirements of the relevant British, European and Qualicoat\* standards.

We are proud to back our advanced production processes with the assurance of a **25-Year Paint Guarantee**, which covers the coated aluminium against any of the following faults:

- ◆ *Peeling, powdering and blistering*
- ◆ *Corrosion except due to bending or folding after the application of the paint*
- ◆ *Chalking, fading and loss of sheen out of the Qualicoat\* regulation*
- ◆ *Filiform corrosion*

◆ *Request a painted sample of your chosen colour before making your final decision.*

\* Marine guarantee applied for separately. Qualicoat is a quality-label organisation established to maintain and promote the quality of coating on aluminium and its alloys.

# Alchemy

Combines the best of anodised and powder coated finishes

# Naturals

Inspiring colours and finishes for contemporary architecture and restoration projects

Beautiful colour-rich coatings, in a variety of versatile shades, the ever popular 'Naturals' range offers style and protection for all your Smart windows and doors.

## Reassuring quality with a lustrous finish

Our in-house polyester powder coating facilities are the most advanced of their kind in the UK.

This allows us to provide the widest range of high quality standard and non-standard colours and finishes for virtually every requirement. Each finish meets the demanding marine-grade standard\*, enabling our systems to be used in even the most challenging environments.

The paint process begins in our pre-treatment area. Alkaline and acid based and 100% chromate free, this stage of finishing ensures the aluminium is perfectly prepared, ready for the polyester powder coating to be evenly and smoothly applied to the surface. The result is a beautiful, durable and low-maintenance finish.

Reflecting our commitment to sustainable manufacture, our finishing plant incorporates a number of environmental features. These include rainwater capture, allowing us to use filtered and cleaned water in the pre-treatment process, and a powder recycling system, which captures and re-uses 98% of all excess powder.

\* Marine guarantee applied for separately. Qualicoat is a quality-label organisation established to maintain and promote the quality of coating on aluminium and its alloys.

✦ *Having selected the finish for your project, simply speak to your supplier and they will arrange for a sample to be sent to you.*
